

5. Smart investment with quick return

For those looking to make an investment in the growing holiday and/or property market in Albania, Green Coast Resort offers investment opportunities services to its current and future clients, local and international ones like: Renting Program and Time Sharing, by choosing their property based on typology, total surface or property value.

Through "Renting Program" your property provides a quick return on investment, starting from 13 years!

Renting Program - All the residents of the Green Coast Resort can be part of this program, which will be supported by an exceptional and dedicated team, committed to provide a great accommodation experience and property maintenance to its clients and visitors.

Time Sharing is a form of purchase borrowed from the best European examples where 2 or more co-owners invest in a property with different quotas over the property price. The rights and obligations of the co-owners stem and are upheld based on the investment quota. Each investor/owner acquires the title of ownership over the unit in proportion with his or her investment quota.

6. Property Management and Maintenance

The management of the resort is expected to be a 5-stars standard level, to ensure a quite and secure living due to security system with private guard and cameras 24/7, maintenance, cleaning and common spaces greenery, etc. The management and maintenance of the resort will be handled by a consolidated company with a long experience in the Albanian market.

GREEN COAST RESORT ALBANIA

ALBANIA, EUROPE'S HIDDEN GEM

**THE SCENE WAS SAVAGE, BUT THE SCENE WAS NEW;
THIS MADE THE CEASELESS TOIL OF TRAVEL SWEET"**

Lord Byron

Think of Albania as a beautiful sonnet, that begins with a traveller's questioning the unknown that awaits before him, upon setting foot in one of Europe's smallest countries and ends with his amazement of finding a divine harmony between the wilderness of the mountains and the peaceful view of a crystal blue coastline, between a history as ancient as the continent itself and a thriving new population embracing the modern, between roman ruins and beautiful contemporary architecture.

Albania's location in the south-eastern part of Europe favours a Mediterranean mild climate of 300 sunny days, which allows for a joyful exploration of the country and its neighboring Greece, Montenegro and Italy (separated by sea).

Its natural wild beauty, its unique history, the rich culinary tradition and the generosity and vitality of its people, make Albania an unforgettable experience and for many, a never-ending love story.

Tourists and international media who have had a chance to visit, praise Albania as the hidden gem of Europe, a land of treasures, including 4 UNESCO World Heritage Sites, one of the most ancient lakes in the world, 40% of Europe's fauna, beautiful valleys, canyons and caves and magnificent Riviera of golden and white beaches lapped by turquoise waters of Adriatic and Ionian Sea.

Today, Albania's image as a tourism destination, in markets such as the UK, USA, Germany, Italy, Benelux and Northern Europe, is highly reputable and associated with affordable exclusivity, intriguing food, cultural experiences, undiscovered wild life and UNESCO World Heritage sites.

Over the past seven years, Albania recorded an increase of 72% in the number of visitors. According to the Government estimations, this number is expected to increase up to 10,000,000 tourists by 2020.

Albania has a favorable business climate with low taxes and a low cost of living compared to most of Europe. Albania has lower prices on property purchase even compared to the neighboring countries: 56% lower than Greece, 50% lower than Montenegro, 60% lower than Croatia and 75% lower than Italy. Property prices have increased gradually approximately by 20 per cent for the past five years, and are expected to increase further.

BALFIN Group, the largest privately owned group in Albania has been granted with the strategic investor status for the Green Coast investment amounting to around € 100,000,000 which is located in the most beautiful beach of the Albanian Riviera, in Palasa.

Green Coast Resort is the largest resort in Albania and one of the biggest in the Balkan. Spread over 50 acres of land, fully respecting the echo-system, the culture and the history of Palasa, the premium resort offers the best of a high-quality lifestyle, comprised of gracefully-designed villas and apartments, a 5* star hotel, upscale service and entertainment, traditional and gourmet restaurants and a picturesque promenade along the sea.

7 Reasons why to invest in Green Coast Resort

1. Strategic location

Green Coast Resort is built in Palasa, a strategic and one of the best locations in the Albanian Riviera, known for its rare and beautiful natural landscape, displaying a harmonious panel of mountains, sea and greenery, pleasing anyone with all four seasons' flavors. Palasa is located very close to Vlorë city, which very soon will have an international airport that will facilitate the access, in addition to its pier. Palasa is well known for its proximity with different attraction sites including UNESCO Heritages sites such as: the National Park of Butrint, The Museum City of Gjirokastra, City of Berat. It is also close to different landscapes and protected areas such as Canyon of Gjipe, Blue Eye Spring, Llogara national park, Dafina Underwater Cave, Pirates cave or Borsh Spring. Palasa is also known as "Caesar's Path", defined also in the Roman epic poem of Lucan, "Pharsalia".

2. High quality of construction

The first large-scale residence project with a high quality to be constructed in the astonishing bay of Palasa, Green Coast Resort, boasts one of the most magnificent architectural designs in the region, facing the breathtaking views of the Ionian Sea. Italian architecture Iraci Studio and A.N.Tombasiz & Associates Architects - Greek Architectural Studio, are bringing in Green Coast Resort their best international experience in different projects worldwide.

3. Safe investment

Balfin Group is the largest and most innovative investment group in Albania and one of the largest in region, an important fact to guarantee every client that wants to purchase a property built by the group is a safe and secure investment. Green Coast Resort is the largest and most important project of Balfin Group, with an investment value of EUR 100,000,000 Green Coast is considered one of the most important investments in the Albanian tourism, impacting not only the local's economic growth, but the country's economy as well.

4. Property Price Increase over time

Based on the Group's long experience in the real estate and tourism sector, it is expected an increase on property prices every year. Also, the area development will affect the increase on property value in a few years and a quick return on investment. That's why, we consider now is the best time to purchase a property in Green Coast Resort, as later the prices will go up quickly.
